

TI-CU Series Walk-In Condensing Units

Reliable Refrigeration for Commercial Walk-In Applications

The Teller Industries TI-CU Series provides commercial-duty air-cooled condensing units for walk-in coolers, cold-storage rooms, foodservice facilities, hospitality, retail refrigeration, and replacement applications. Units are designed for dependable operation, straightforward serviceability, and flexible system selection.

KEY FEATURES

- Air-cooled commercial refrigeration design
- Indoor and outdoor configurations available
- Service-friendly component layout
- Matched evaporator selections available
- Commercial-duty compressor configurations
- Low-ambient operation options
- Multiple electrical configurations
- Replacement and retrofit applications

AVAILABLE MODELS

MODEL	NOMINAL CLASS	TYPICAL APPLICATION
TI-CU-050	1/2 HP	Small walk-in coolers
TI-CU-075	3/4 HP	Small-to-medium walk-in coolers
TI-CU-100	1 HP	Restaurants and foodservice
TI-CU-150	1-1/2 HP	Larger walk-in coolers

Horsepower identifies the nominal compressor class, not a fixed refrigeration capacity. Actual capacity depends on compressor, refrigerant, suction temperature, ambient temperature, evaporator operating conditions, and other application-specific factors.

APPLICATIONS & OPTIONS

Walk-in coolers, commercial kitchens, restaurants, grocery and retail, beverage storage, cold-storage rooms, and replacement or retrofit systems.

Available options: Low-ambient package | Outdoor configuration | Low-sound package | Corrosion-resistant construction | Enhanced electronic controls.

EQUIPMENT SELECTION

Final performance, dimensions, electrical and refrigerant configurations, and matched system components are determined by the project requirements. Contact Teller Industries for equipment selection, drawings, submittals, and a quote.
